February 21, 2018

Dear Customer,

Thank you for shopping local, and shopping with us at Bison Merc.

Coming up on the anniversary of the March 6 wildfire(s), all I can say is, sure could use some moisture about now. As for the anniversary, I'm sure everyone has a story to tell. Me, I am glad we are all here to tell our story.

Spring is almost here. Daylight savings 'spring forward' is on Sunday, March 11th. Daylight savings events are an excellent time to take an afternoon and check your smoke and/or carbon monoxide detectors, and any other devices such as water leak detectors. If you have electronic safes, check or replace those batteries as well (I suggest replace, ask me sometime). Check and repack vehicle emergency kits and boogie bags for warm weather considerations. Wouldn't hurt to check the battery terminals in your vehicles to make sure they didn't corrode over the winter. Check your water line valves to make sure they close and open again. Inspect your water heater for fatigue. Doesn't hurt to check your attic to make sure everything is good and no critters snuck in during the cold.

The sky life is a bit time this session, other than the sunset becoming later and later. Full moon on March 2nd, New Moon on March 17th. Of interest is March 15th Mercury will be at the easiest point to locate; look low in the western sky just after sunset.

Again, Thank You,

Sincerely,

Jerome Berryman
